EXAMINER'S COMMENT

TERMINAL DISCLAIMER

Applicant's Terminal Disclaimer filed May 9, 2005 has been approved and recorded.

RESPONSE TO APPLICANT'S REMARKS

The following comments are made to clarify the record and to respond to applicant's comments in the Response of May 9, 2005. The Terminal Disclaimer has been required because applicant's claims, particularly claims 30 and 42, are different from the subject matter non-elected in the Restriction made in applicant's parent application and now a part of the present claims of the current application. These new claims present subject matter that closely corresponds to the allowed claims, elected claims, in the parent application. MPEP 804.01(B) specifies that the following situation is where the prohibition of double patenting rejections under 35 USC 121 do not apply:

(B) The claims of the different applications or patents are not consonant with the restriction requirement made by the examiner, since the claims have been changed in material respects from the claims at the time the requirement was made. For example, the divisional application filed includes additional claims not consonant in scope to the original claims subject to restriction in the parent. *Symbol Technologies, Inc. v. Opticon, Inc.*, 935 F.2d 1569, 19 USPQ2d 1241 (Fed. Cir. 1991) and *Gerber Garment Technology, Inc. v. Lectra Systems, Inc.*, 916 F.2d 683, 16 USPQ2d 1436 (Fed. Cir. 1990). In order for consonance to exist, the line of demarcation between the independent and distinct inventions identified by the examiner in the requirement for restriction must be maintained. 916 F.2d at 688, 16 USPQ2d at 1440.

Art Unit: 3725

In accordance with the above noted citation, the restriction made in this application is proper and the holding of the Terminal Disclaimer is deemed necessary to overcome the obviousness Double Patenting rejection made in the First Office Action herein.
